- (c) a bowl which in its original course on the rink mat touches the live jack which is playable and finishes in the live area or ditch.

16. Definition of a Toucher

- (a) a bowl which in its original course on the rink mat touches the live jack which is playable, either directly or by deflection off another bowl or bowls, even though such bowl settles in the ditch. Such a bowl shall be called a toucher except when Law 37 applies. If, after having come to rest, a bowl falls over and touches the jack before the next succeeding bowl is delivered, or in the case of the last bowl in an end it falls and touches the jack within the period of half a minute invoked under law 33(a), such a bowl shall also be a toucher.

(Note: Position of toucher in ditch should be marked by chalk.)

- (b) a toucher should be clearly marked with chalk by a member of the player's side before the delivery of the succeeding bowl. If a bowl is not so marked before the succeeding bowl comes to rest it ceases to be a toucher. If in the opinion of either Skip, or opponent in singles a toucher or wrongly chalked bowl comes to rest in such a position that chalking or erasing the mark is likely to move the bowl or alter the head, the bowl shall not be marked or have its mark erased but shall be indicated as a toucher or non-toucher as the case may be. Toucher marks should be removed before a bowl is played subsequently.
- (c) a toucher finishing in the ditch must be marked as such except when Law 37 applies.

17. Action of Touchers

18. Touchers Rebounding

A bowl is dead and must be removed from the rink mat if:

- (a) delivered from a foot-fault position.
- (b) it strikes the block or passes over it.
(Note: Bowls delivered under (a) & (b) above should be stopped, where possible. If not possible then any bowl or jack which as a result is driven over the fender will incur penalties under Laws 20 or 26 as appropriate. These penalties also apply to bowls or jack driven over fender as in section (f).
- (c) it does not travel beyond the dead area
- (d) when it comes to rest any portion of it intersects any part of the dead line.
- (e) when it comes to rest any portion of it intersects any part of the ditch line unless it is a toucher.
- (f) being a non-toucher it finishes in the ditch, touches or rebounds from the fender, strikes the jack or toucher in the ditch.
- (g) any portion of it comes into direct contact with the floor or any non-playing surface; a toucher may, however, come into contact with the fender.
- (h) Law 37 applies.

20. Bowl Driven over Fender

If a bowl be delivered with such force as to pass over the fender or to drive another bowl over the fender the opposing skip shall have the option of:

- (1) claiming 3 shots and counting the end as an end played; or

- (2) claiming the shots lying after bowl has gone over fender and counting the end as end played; or
 - (3) completing the end; or
 - (4) counting the end as a Dead End and playing the end anew.
- (Note: If the jack is also driven over the fender Law 26 **only** will apply).

21. Bowl Displacement

- (a) Displacement by Non-Toucher: A head disturbed by a bowl delivered from a foot-fault position or by a bowl which strikes the block, or any toucher in the ditch disturbed by a non-toucher or any bowl displaced by a non-toucher rebounding from the fender shall be restored as near as possible to its original position by the opposing Skip, and the end completed. If the opposing skip deems it impossible to restore the head, he shall have the option of playing the end anew in the same direction. (Note: Law 20 overrides this).
- (b) Displacement by Participating Player: If a bowl at rest on the rink mat or if a toucher in the ditch be interfered with or displaced by one of the players, the opposing Skip shall restore the bowl as near as possible to its original position. If the Opposing skip deems it impossible to restore the head, he shall have the option of playing the end anew in the same direction. If a bowl in motion be interfered with, it shall be replayed.
- (c) Displacement by Non-Player: If a bowl while in motion or at rest on the rink mat or if a toucher in the ditch, be interfered with or displaced by an individual not playing or by a bowl or jack from another rink mat or by any object the two Skips shall come to an agreement regarding its position. Should the two Skips fail to agree, the end shall be played anew in the same direction.
- (d) Displacement by Marker or Umpire: If a bowl is moved as it is being marked or measured by the marker

or umpire it shall be restored as near as possible to its original position by the marker or umpire subject to the agreement of both Skips. Where the Skips cannot agree the end shall be played anew in the same direction except where a shot or shots have already been awarded to a Skip who then has the option of accepting this as the score for the end.

- (e) **Toucher in the Ditch:** A toucher in the ditch shall remain live and shall not be moved except by the direct contact of another toucher or by the jack.

D. THE JACK

22. A Live Jack

A jack is live and may be played by a live bowl if the jack is within the live area or if any portion of it is within the live area when it is intersecting the ditch line.

23. A Jack in the Ditch

A jack driven into the ditch shall remain live and shall not be moved except by the direct contact of a toucher. Law 26, however, overrides this.

(Note: Position of jack in ditch should be marked by chalk).

24. A Dead Jack

A jack is dead if ...

- (a) any portion of it comes into direct contact with the floor or any non-playing surface other than the fender.
- (b) it is driven by a bowl in play beyond the boundaries of the rink mat, that is, off the side, or should it rebound over the dead line. *(Note: If the bowl however, passes over the fender law 20(1) or (4) will apply).*
- (c) after rebounding it comes to rest either in the dead area or with any portion of it intersecting any part of the dead line.

25. Dead End

When the jack is dead the end shall not normally be counted a played end, even though all the bowls have been played. The end shall be played anew and in the same direction.

26. Jack Driven over Fender

If a jack, whether playable or in ditch, is driven over the fender by a player the opposing Skip shall have the option of:

- (1) claiming 3 shots and counting the end as an end played; or
- (2) counting the end as a dead and playing the end anew.

27. A Rebounding Jack

Should the jack be driven against the fender and rebound on to the live area or should it rebound from a toucher in the ditch on to the live area or after being played into the ditch it be moved by a toucher so as to find its way on to the live area, it shall be played to in the same manner as if it had never left the live area.

28. Jack Displacement

- (a) Displacement by a non-toucher: A jack disturbed by a bowl which is delivered from a foot-fault position or which strikes the block or a jack displaced by a non-toucher rebounding from the fender or a jack in the ditch disturbed by a non-toucher shall be restored as near as possible to its original position by the opposing Skip and the end completed. (*Note: Law 26 overrides this*).
- (b) Displacement by a participating player: If a jack while in motion or at rest on the rink mat be interfered with or displaced by one of the players, the opposing Skip shall restore the jack as near as possible to its original position. If the opposing skip deems it impossible to restore the head, he shall have the option of playing the end anew in the same direction.

- (c) Displacement by non-player: If a jack, while in motion or at rest on the rink mat, be interfered with or displaced by an individual not playing or by a bowl or jack from another rink mat or by any object the Skips shall come to an agreement regarding its position. Should the Skips fail to agree the end shall be played anew in the same direction.
- (d) Displacement by marker or umpire: If a jack is moved as it is being measured by the marker or umpire it shall be restored as near as possible to its original position by the marker or umpire subject to the agreement of both Skips. Where the Skips cannot agree the end shall be played anew in the same direction except where a shot or shots have already been awarded to a Skip who then has the option of accepting this as the score for the end.

E. GENERAL CONDITIONS OF PLAY

29. Order of Play

No one shall play until his opponent's bowl has come to rest. Players must not interchange positions under penalty of disqualification except where a substitution is made.

30. Possession of the Rink Mat

Possession of the rink mat shall belong to the side whose bowl is being played. The players in possession of the rink mat shall not be interfered with, annoyed, or have their attention distracted in any way by their opponents. As soon as each bowl has come to rest, possession of the rink mat shall be passed to the other side, time being allowed for marking a toucher.

31. Position of Players

- (a) Subject to (b) below players in possession of the mat may confer on the mat. Otherwise, players not in the act of playing or controlling play must remain behind the fender at the head end or the delivery end.
- (b) Leads in pairs and triples and leads and seconds in

fours must remain at the delivery end and behind the dead line. They must not move to the head end until all their bowls have been delivered. Players must be warned by the Umpire, or if none on duty, by the Opposing Skip as soon as they cross the nearest deadline and on the second offence the opposing Skip can have the bowl stopped and removed from the rink mat or have the end re-played from the same direction. In league games, if no umpire present, the opposing skip will warn on the first offence.

32. Players and their Duties

- (a) The Skip: The Skip shall have sole charge and his instructions shall be obeyed by his players. With the opposing Skip he shall decide all disputed points and when both agree their decisions shall be final. If both skips cannot agree, the point in dispute shall be referred to and considered by an umpire whose decision shall be final.
- (b) The Third: The Third may have deputed to him the duty of measuring any and all disputed shots.
- (c) The Second: The Second shall keep a record of all shots scored for and against his team and shall at all times retain possession of the score card whilst play is in progress. He shall ensure that the names of all players are entered on the score card, shall compare his record of the game with that of the opposing Second as each end is declared and at the close of the game shall hand his score card to his Skip.
- (d) The Lead: The Lead shall place the delivery mat and shall ensure that the jack is properly centred before playing his first bowl.

33. Result of End

- (a) The Shot: A shot or shots shall be adjudged by the bowl or bowls nearer to the jack than any bowl played by the opposing player or players. When the last bowl has come to rest half a minute shall elapse, if either

team so requires, before the shots are counted. Neither jack nor bowls shall be moved until each Skip has agreed as to the number of shots, except where a bowl has to be moved to allow measuring of another bowl.

- (b) **Measuring conditions:** No measuring shall be allowed until the end has completed. All measurements shall be made to the nearest point of each object. If a bowl requiring to be measured is resting on another bowl which prevents its measurement, the best available means shall be taken to secure it in its position, whereupon the other bowl shall be removed. The same course shall be followed where more than two bowls are involved, or where in the course of measuring, a single bowl is in danger of falling or otherwise changing its position. The measurement shall be made with a flexible measure or callipers.
- (c) **Tied End - No Shot:** When at the conclusion of play in any end the nearest bowl of each team is touching the jack, or is deemed to be equidistant from the jack, there shall be no score recorded and the end shall be counted a played end.
- (d) **Last bowl in an end –** nothing in these laws shall be deemed to make it mandatory for the last player to play their last bowl in any end, but they should make their intentions known to the opposing side before commencement of the determination of the result of the end. Once they have declared, that bowl may not be played.

34. Game Decisions

The winner is the player or team with the highest number of shots or points at the end of the game. If where the agreed number of ends has been played the scores are equal, an extra end or ends shall be played until a decision has been reached. The captains in a match or Leads in other games shall toss and the winner shall have the right to decide who shall play first. In the case of more than one extra-end

being required the players shall toss at the beginning of each additional end but in the case of an extra-end being declared dead no further toss is required for that end. Any dead ends already incurred are carried into the extra end/ends.

35. Defaults by Players

- (a) Absentee Players: In a single fours game unless all four players appear and are ready for play before the end of the specified waiting period then that four shall forfeit the match. If one or more players are absent in a team game the game shall proceed. In the defaulting fours, the number of bowls shall be made up by the Lead and Second players playing three bowls each, but one quarter of the total shots scored by each fours playing three players shall be deducted from their score at the end of the game. Fractions shall be taken into account.
- (b) Playing out of turn: When a player has played before his turn, the opposing Skip shall have the right to stop the bowl and it shall be played in its proper turn. If the bowl has come to rest without disturbing the head it shall be returned and played in its proper turn but where the bowl so played has moved or displaced the jack or bowls, the opposing Skip shall replace the head as near as possible to its original position and the bowl shall be played in its proper turn. If the opposing skip deems it impossible to restore the head he shall have the option of playing the end in the same direction.
- (c) Playing the wrong bowl: A bowl played by mistake shall be replaced by the player's own bowl.
- (d) Changing bowls: A player shall not be allowed to change his bowls during the course of a game unless they are objected to as not complying with Law A5 or when a bowl has been so damaged as to render it unfit for play.

36. Influences Affecting Play

- (a) **Game Stoppages:** When a game of any kind is stopped either by mutual arrangements or any other valid reason, it shall be resumed with the scores as they were when the game was stopped. An end commenced, but not completed, shall be declared null. If in a resumed game any one of the original players in any fours is not available one substitute shall be permitted. Players, however, shall not be transferred from one four to another.
- (b) **Leaving the rink mat:** If during a game a player has to leave the rink mat owing to illness or other reasonable cause, their place shall be filled by a substitute if both Skips agree such substitution is necessary. In a Team Game or the National or Ladies Championships, such substitute must be a member of the same Club to which the Team, Pair, Triple or Four belong. In a Licensed Tournament, the substitution must be in accordance with Law 43(k) and (l). No player shall be allowed to delay play by leaving the rink mat unless with the consent of his opponent, and then only for a period not exceeding ten minutes. Contravention of this law shall entitle the opposition to claim the game or match.
- (c) **Objects on the rink mat:** Under no circumstances shall any extraneous objects to assist a player be placed on the rink mat, or on the fender, or on the jack, or on the bowl, or elsewhere.
